AND RIVER PLATE NEWS.

No 2,729 - ELEVENTH YEAR — BUENOS AYRES, SATURDAY, JUNE 17, 1871. — CIRCULATION, 3000

MAUA BANK,
101—103 CALLE CANGALLO

The Office of this Bank having been removed to the above spacious building, in order to suit the increasing flow of business, the public is informed that the following transactions are carried on :—

First—Currency and specie in this Bank —Notes and obligations with good signatures—Gold and silver discounted on conventional terms.

Second—Money is advanced on mercantile and other securities approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing cash and transferable securities, against which they may draw up to an amount previously confirmed under conditions established for such class of operations.

Fourth—Money is received in account current bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of cheques, part or the full amount at their wish, save when the quantity exceeds three hundred doubloons or one hundred thousand dollars currency in which case forty-eight hours previous notice is required to begiven to the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo; Rosario, Sta Fé, Salto Oriental, Paysandu, Pio Janeiro, and other places in the Brasils, England and France, as also on other places, of which notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions within the orbit of banking operations.

The establishment is always open from 10 a.m. till 3 p.m.

"LA ESTRELLA"
ARGENTINE COMPANY FOR INSURANCE AGAINST FIRE,
AT FIXED PREMIUM.

CAPITAL, ... 2,000,000 HARD DOLLARS
[Sanctioned by Decree of National Government, October 24th, 1855. Also by the Provincial Executive, dated 23rd of same Month and Year.]

MANAGING COMMITTEE.

PRESIDENT:
Don Enrique Ochoa.
VICE-PRESIDENT:
DIRECTORS:
Señor Don Tomas Armstrong.
" " George Temperley.
" " Francisco Bustamante.
" " Henry N. Hart.
" " Alex. Sivori.
DIRECTOR-GENERAL:
Don Francisco F. Moreno.
INSPECTOR
Guillermo Schindler.

The Company Insures against Fire on very small Premiums. Every class of Buildings and Goods, whether private or industrial.

Goods in Customs Deposit may be likewise Insured.

Insurers in this Company contract no other obligation than the payment of the stipulated Premium on the Policies, the Company being only responsible for such injuries as they may suffer from Fire.

Among the general conditions of the Policy, there is one of particular advantage to Mortgage Creditors.

The Company offers the following Rewards :—
$f.40 To the first Hose ready to lend assistance.
$f.20 To the second do. do.
$f.20 To the first pipe of water.
$f.20 To each of the five succeeding pipes
$f.4

Which run to the Fire of any Edifice or Property Insured in THE ESTRELLA, on making known his choice of the Reward, or a Certificate issued by the Police authorities to such as shall have assisted at the mishap.

The Company will also give a Reward of $f.4 to whoever shall present themselves at their Office, to give Notice of any Fire within the Municipal boundary.

POLICIES Issued, and all further particulars to be had, at the Head Office, No. 112½ FLORIDA —Up stairs—or at any of the Country Agents.

MARITIME DEPARTMENT.

By virtue of Decrees of the 2d of April and 9th of June last, of both Provincial and National Governments, and also having been duly registered in the Public Archives, this Company has been authorised to issue Maritime Policies, in accordance with the laws and regulations, in such case made and provided.

For further particulars, apply to the Office of the Company, 112 Florida, up stairs

The objects of the Company are mutual.

Each Shareholder of the two or ten patacon notes has a share in the drawings which take place in June and December, semi-annually. The holder of one hundred patacons in notes is entitled to a Bond with quarterly interest coupons, the interest on said Bonds being 10 per cent. per annum.

All funds received on sale of Tickets, Bonds, &c. are invested in mortgages on real estate and chattels, and the vouchers of same lodged in the Provincial Treasury under the special charge of the Government delegate, appointed to inspect the affairs of the Company.

The Popular Argentina gives the following securities :—

1st. Administrative and guarantee capital $500,000, besides a reserve fund to be formed of $50,000, afterwards to be increased to $100,000.

2nd, Invertion of all the capital in documents secured by mortgages on property or loans on stock.

3rd. Deposition of these documents in the office of the Treasury of Buenos Ayres.

4th. Intervention in and fiscalization of all the operations of the Company, effected by a Board of Directors chosen yearly by the subscribers themselves.

Every half year reports are published of the state of the Company's affairs.

Circulars and pamphlets, with the fullest particulars respecting this company can be had on application at the Banking Offices, 213½ Calle Piedad, Buenos Ayres. 120 xp f11

"THE QUEEN"
FIRE AND LIFE INSURANCE COMPANY.
CAPITAL, £2,000,000.

INCOME, £160,000.

LIVERPOOL AND LONDON

Insurances against loss or damage by fire may be effected with this Company on Dwelling Houses, Warehouses, Buildings, Merchandize and Goods in the Custom-house, Bonded Stores, and private ones, Produce in the Barracas or in Deposit Stores, in the Lighters or on Board; and on nearly every description of property.

Rates of premium vary according to the nature of the risks, and will be found as moderate as those of other first-class offices.

Losses by Explosion of Gas paid for. Loses by fire arising from lightning made good.

The advantages obtained by those who assure with the "Queen" are fully mentioned in the prospectuses. Life Policies are indisputable; advances to policy holders, &c. The "Queen" enjoys to so great an extent the confidence and support of the public in England that the Post, master-General has selected it, for the insurance of the lives of the clerks and other officials.

The undersigned General Agent of the Queen Fire and Life Insurance Company is duly authorized by power of attorney to issue policies and to settle and pay losses in Buenos Ayres with promptitude and liberality, without reference to the chief office in England.

Official registration has been entered in the Registro Publico, in accordance with the existing laws of this Republic.

Apply for Insurances and other details from 11 to 3 daily, No. 121 Calle 25 de Mayo, corner of Corrientes, to

It being an admitted fact, that "Money makes money," the object of LA BIENHECHORA could not be better, since it opens a vast Savings Bank for the surplus or savings of the Public, so that, by the proper employment of these small gains, a moderate capital, or even annuity, may be secured in a short time. By this means a provident, though helpless, family can husband their small means, and, in the end, attain a competency.

It being proved that the accumulation of interest is the most powerful means of augmenting the capital, THE BIENHECHORA DEL PLATA—an Argentine Company, whose only investments are in the country—holds out to Subscribers greater advantages than any other Institution, by reason of all its dealings being in the River Plate, where are current as large interests as in any part of the world.

THE BIENHECHORA DEL PLATA receives Deposits of from Five Patacones per Ancum up to any amount in Weekly, Monthly, or Yearly Instalments.

Subscribers enrolled and all necessary information given at the Head Offices of the Company 112½ (altos) Calle Florida, Buenos Ayres

NOTICE TO SHIPOWNERS AND SHIPMASTERS.

The Marine Railway at Colonia being completed, public attention is called to the following Tariff of Charges :

Capacity of 500 Tons, dead weight.

Sailing Vessels and Steamers of over one hundred [100] tons, English or American measurement, will pay a rate of one dollar ($1.00) per ton gold, for being taken up. Each nominal horse power of engine in steamers, will be charged for as an additional ton of measurement

Sailing Vessels or Steamers, whose entire registered tonnage and horse power of engine does not equal one hundred (100) tons, will pay the rate of one hundred [100] tons.

All cargo will pay one dollar and a-half (1.50) in gold, per ton, for being taken up, and the regular rates for laying on.

For laying on the Railway, from the hour the Vessel or Steamer is properly up, for each twenty-four (24) hours, seventy-five ($0.75) cents. per ton. in gold, and any twenty-four (24) hours entered upon will be charged as a full day.

Wrecked Vessels or Steamers, whose bottome are broken, will not be taken at the regular rates but must make an especial agreement with the Company's Agent at Colonia.

No charge will be made while laying on, for Sundays or stormy days, when no work can be done below the load line of the Vessel or steamer.

LONDON AND LANCASHIRE FIRE INSURANCE COMPANY

CAPITAL, £1,000,000 | INCOME, £110,000, LONDON.

BUENOS AYRES

Sanctiones a los Accionistas que resoluciones especiales fueron pasadas el 22 de Marzo de 1871 y confirmadas el 19 de Abril de 1871, por las cuales las siguientes alteraciones son hechas en le constitucion de la Compañia.—

1° Las Acciones existentes de la Compañia de £10 cada una son divididas en dos acciones de £5 cada una. Los tenedores de las Acciones Nominativas de £10 cada una se dirigan depositarias en la oficina de esta Compañia, con el objeto de trasmitirlas á Inglaterra á ser canbiadas por las Acciones de £5 cada una. Asu deposito el directorio local dará un resibo provisorio, el cual sera canbiado por las Acciones de £5 cada una, cuando estas sean recibidas de Inglaterra, lo que se anunciará en debido tiempo.

2° El capital de la Compania es aumentado por la adicion de 10,000 acciones de £5 cada una, y los Directors son autorizados a emitir tanto estas como las 5000 acciones restantes del capital original aun no emitidas, de la manera que a ellos mejor les pareca. Han decidido ofrecer las 15000 acciones de £5 cada una a ser emitidas de la manera expresada a los tenedores de las acciones existentes de la Compania en la proporcion de una nueva accion de £5 por cada accion de £5 existente. Los tenedores aqui de acciones al portador que deseen aprovecharse de esta opcion depositaran sus acciones en la oficina de la Compania antes del 16 del presente con las formas de solicitacion que podran obtenerse en ladicha oficina.

Ec las nuevas acciones no pedidas antes del mencionado dia se dispondra de l manera que al Directorio en Londres mejor les parezca. Un deposito de £1 por acoion se hara al tiempo de hacer el pedido.

3° Hay nuevo reglamento acerca de las acciones al portador, por el cual se provee que los tenedores de esas acciones seran accionistas de la compañia, sujetos al reglamento indicado por las resoluciones; pero las acciones emitidas antes del 3° de Abril de 1871 no gozan de este privilegio hasta que no hayan sido depositadas con la compañia con una aceptacion escrita de los terminos de dicho reglamento.

Los tenedores de acciones al portador quienes desean aprovecharse del privilegio asi ofrecido se serviran depositar sus acciones en la oficina de la Compañia con el objeto de endosar sobre ellas la aceptacion del nuevo reglamento.

N.B.—Cualquier accionista quien desee transfe.ir su derecho a las nuevas acciones, lo puede hacer firmando tanto el como su nombrado la forma correspondiente.

Las formas de aceptacion, renuncia, y transferencia, y copias de las resoluciones especiales, se pueden obtener en la oficina de la compañia, en las Tres Esquinas, Barracas.

STOCKFORD'S SULPHURO-CAROLIC ACID DIP.

An anti-poisonous preparation for applying to Sheep.

This preparation of which the good effect and so well known and highly appreciated by the Sheep-farmers, has been proved recently in this country with the most beneficial results, as will be seen by the following testimonials from the manager of one of the most important Establishments in this Provice:—

"In October 1870, immediately after Shearing, I dipped all our rams, which, at the time, were in low condition and generally scabby. I also dipped in February 1871 all the pure French Flock, and founed in both instances that the result was to my satisfaction.

The improvement in condition, particularly of Rams after dipping, was ver marked.

I therefore do not hesitate to recommend this Dip to all Flock Masters.

It meets all the inquirements of a thoroughly good and efficacious Dip, and being entirely free from Mineral Poisons, does not injure the health of the animal nor the stable.

The simplicity of its preparation for use, its efficacy and its cheapness render it a most valuable acquisition to all Estancieros in this country."

Asuncia del Espartillar, June 5th, 1871.
Signed P.V.A. REID.

Sold in Iron Drums of 5 and 10 gallons, each by Zimmermann, Fair & Co., No. 7 Calle Bolivar, Buenos Ayres, and Calle Sarandi, Montevideo, who will give further particulars and price list on application.

SATURDAY, JUNE 17, 1871.

BRITISH HOSPITAL MEETING.

Yesterday at 2.30 p.m. the Annual Meeting of the subscribers to the British Hospital was held in the board room of the Bolsa. The meeting was one of the most influential hospital meetings ever held. We noticed present Messrs. Parish, Armstrong, Rev. Mr. Smith, Rev. Mr. Ash, Drysdale, Green, Haezen, Getting, Jordan, Jones, Murray, Bell, Best, U. Smith, Peters, Roberts, Hogg, Rosignol, Mackintosh, Brown, Samuel, Wilson, Miles, Soden, Moore, Josling, Crabtree, Thompson, McGhie, Mackinlay, Warden, Milroy, Wanklyn, Williamson, Russell, &c.

Mr. FRANK PARISH in the Chair.

The Secretary read the Report, which was printed in neat pamphlet form, and handed round on the report being read.

Mr. Murray moved its adoption.

Mr. W. Wilson seconded the motion, which was then put and carried.

The next business of the meeting was as follows.

Proposed by Mr T. Armstrong, and seconded by Mr. G. Best.

Whereas, in the opinion of the majority of the subscribers to the British Hospital, the persons most deserving of free admissions are British residents in reduced or destitute circumstances.

Whereas it is asserted by some subscribers that the free wards are sometimes filled by persons lately arriving in the country, not always of good character, to the exclusion of more deserving objects.

Whereas there is a growing desire among the subscribers to acquire in return for their subscriptions some right of granting free admissions to the Hospital.

Whereas the right of the British Government and its representative, and the privilege of the subscribers are not clearly defined and understood.

Whereas it is a matter of doubt whether the donations of the British community could not be more economically administered, and more directly applied to the relief of the most deserving cases in a smaller establishment.

It is resolved to appoint a Committee of Enquiry composed of the following gentlemen :—

H. A. GREEN,
E. NAYLOR,
T. NEILD
M. HAEZON
W. THOMPSON.

Who are requested to study the question in its entirety and to make a report of the opinion they form at a Special General Meeting to be convened not later than two months from date, at which Special Meeting a resolution may be arrived at with regard to addressing H. M. Government on the subject.

The Chairman rose, and said, that before putting these resolutions to the meeting, he wished to make an observation. From the language of the resolutions just read, it would seem that there existed some difference of opinion between himself and the Directors, which, he was happy to say, was not so. Neither was there any room for believing that he had used his influence to get any sailors admitted to the exclusion of all others. Vessels lay out a long way in this port, and it would really be very hard, if a sailor fell sick on board, that he could not be sent to the British Hospital. Mr. Parish dwelt at much length on the subject.

Mr. H. A. Green explained that in the passing of these resolutions nothing was to be inferred that there was anything personal in the matter; the resolutions were proposed to meet the wishes of numerous subscribers, who sought further information respecting their rights as subscribers and the privileges of the institution.

Mr. Frederick Moore rose, and in a very lucid and able manner explained the real drift of these resolutions, which met his highest approval. He did not offer any opinion as to whether the majority of the subscribers were right or wrong in their complaints, but he approved of the proposal to name a committee to enquire into these subjects, and considered that he had the more right to express his view on this matter, since he perceived that his name figured on the proposed new committee, which post he declined.

The resolutions were then put to the meeting, and carried by a large majority.

Mr. Frederick Moore proposed the following gentlemen to compose the new Board of Directors—

Mr, E. Naylor.
" W. R. Beadle.
" Hugh Brown.
" Urban Smith.
" John Campbell.

SUPLENTES.

Mr. Mackintosh.
" Macrae.
" James Hogg.

Professor Murray moved that every subscriber present be at liberty to make a list for the new board.

The Chairman stated that this would lead to confusion, and after some conversation Mr. Murray withdrew his amendment.

Mr. Haezon seconded Mr. Moore's motion, which was then put and carried.

Mr. Ure Mackinlay, moved a vote of thanks to the outgoing Board. He knew the very arduous duties these gentlemen had been called upon to discharge, oftentimes abandoning their business to attend to that of the Hospital.; how well these gentlemen discharged those duties we all know, he therefore moved a vote of thanks to them for their services.

Mr. Thomas Drysdale seconded the motion.

Rev. Mr. Smith (Scotch pastor) rose, and in graceful terms spoke of the very high efficiency of the out-going Board. He had known many Boards, and been long connected with the Hospital, but a better Board than the outgoing he never knew. They were indefatigable in their efforts; they all worked well, and pulled together; and it was due to Mr. Green, the chairman, to say that to him the Hospital was indebted for the splendid result of the Bazaar which was so successfully carried out by the ladies Mr. Getting also deserved especial praise: he took charge of the collection of subscriptions. We all know how difficult it is to get in subscriptions; but Mr. Getting was singularly successful in this regard, and he was happy to have this opportunity of testifying to the valued services of all these gentlemen.

Mr. Green returned thanks on behalf of the Board. If the Committee had on occasions erred, they did so unintentionally. They all did their best, and he was happy to say that he believed the British Hospital everyway sound.

The Chairman asked, was there any intention at the present meeting to look ahead, or make any provision for the future, so that, if, unhappily, this place should be again visited with yellow fever, or other epidemics, the Hospital would be better prepared.

Mr. U. Mackinlay thought the subject one of much importance; it appears that some English female yellow fever patients were taken in at the Irish Hospital, as no yellow fever cases were admitted at the British Hospital. At the French Hospital yellow fever patients were also admitted.

After some conversation on this matter,

Mr. U. Mackinlay put the following resolution, which was duly seconded and carried:—

Resolved—"That the incoming committee call a special meeting, to take into consideration the necessity of providing an appropriate lazzaretto for the reception of British poor, in case of a return of the late epidemic."

A vote of thanks to the Chairman was then passed, and the meeting dissolved.

THE LATE GEN. PAUNERO.

The announcement of the death of this distinguished man, which took place at Rio Janeyro on the 7th inst., has caused a feeling of regret throughout our city, for General Paunero was universally esteemed, and counted numerous friends among our foreign community. For the past three years he filled the important post of Argentine envoy to Brazil, with credit to his country, and his death, from Yellow Fever, may be almost regarded as premature, for he had not reached the age of "threescore and ten," and seemed of a vigorous constitution. We take from the Handbook some particulars of his biography:—

Wenceslao Paunero was born at M. Video and began his military career in 1825, in the war with Brazil, taking part in the famous battle of Ituzaingo. In the civil wars of 1828-36 he sided against Rosas and was forced to take refuge in Bolivia, where he procured a living as shop-assistant, and afterwards started a newspaper. The M. Video Government named him Chargè d'Affaires in Bolivia, and during his residence there he married the sister of Gen. Ballivian, afterwards President. In 1851 he returned to the River Plate, to assist in the war against Rosas, and was present at the battle of Caseros, Feb. 3rd 1852. He served against the Indians till 1858, and was G. Mitre's Chief of Staff both at Cepeda and Pavon, being made a Major-General on the latter field (Sept. 19th 1861). He afterwards saw much service in the civil war with the Chacho (1863), the Paraguayan campaign (1865-67), the San Juan revolution, &c. He was candidate for Vice-President at the last election (1868), but was defeated by Dr Adolfo Alsina.

His personal character is thus described by an Argentine biographer, writing in 1866—"He has a middling education, and is of polite address. He understands war both in theory and practice, and is ever ready to take advantage of the least error of his adversary. His two great faults are, want of firmness, and a leaning to flattery. He is brave on the battle-field, but lax in discipline, and listens to all who flatter him. He is very good-natured, and the soul of candor, believing in the good faith of everybody, till he is often taken in. No one has ever tried to slander him. He never loses his temper, except in playing Chess, and is equally beloved by the soldiers and the people, at a period when generals and officers are regarded with disrespect by society."

In personal appearance he had a soldierly bearing, and easily distinguished by his long, white beard. By a singular coincidence he was accredited plenipotentiary to the same capital where in his youth he passed some time as prisoner-of-war. His appointment as Minister near the Brazilian Court (which was one of the first acts of President Sarmiento) was exceedingly well advised. The Emperor Dom Pedro treated him with the most friendship and regard; in fact there were few men better liked in Rio Janeiro than the old general. His kindness and hospitality to all visitors from the River Plate was proverbial, and he would look up any Argentines of whatever rank, with a view of rendering them a service. We had the pleasure once to spend a day with Gen Paunero in his charming residence at Petropolis, where he devoted much of his time to plants and flowers: he was accustomed to send some of the rarest shrubs to Buenos Ayres by almost every steamer. He leaves a daughter (Mme. Pividal) to inherit his honored reputation.

THE BOBYCITO MURDERS AT FRAY BENTOS.

PARLIAMENTARY BLUE BOOK.

No. I.

Consul Munro to Earl Granville—(*Received September* 12.)
(Extract).
Monte Video, August 10, 1870.

It is my duty to give your Lordship information of a very atrocious case of mutiny and murder that has occurred at the port of Fray Bentos, in this Republic, the victim being Mr. William Cornwall, master of the barque Bobycito, of Liverpool, and the mutineers and assassins being four English seamen of his own crew.

This vessel was loading a cargo at the wharf of Liebig's Extractum Carnis Company, and on the afternoon of the 24th July last, shortly after the master and his wife, a young creature of seventeen, had come on board. When taking tea in the cabin, a noise was heard on deck, and on Mr. Cornwall asking the cause of the disturbance, he was assailed with a torrent of the foulest abuse of himself and his wife, the terms being too disgusting to repeat; and upon the master asking the men why they used such abominable language in the presence of his wife, a threatening advance was made upon him, when Mr. Cornwall, who had armed himself, declared that he would shoot the first man that attempted to enter his cabin. On this a rush was made at the master, and an Englishman named Thomas Jones plunged his knife into the master's body, just below the heart, and the unfortunate man expired shortly afterwards. Mr. Cornwall had fired his revolver and slightly wounded one of the mutineers.

A watch was kept upon these ruffians that night by the master of another British ship and his men, and the following day they were handed over to the police, from whom Thomas Jones, the murderer, managed to effect his escape the same night, and has not since been heard of.

From the evidence given by the mate, the carpenter, and the steward of the 'Bobycito,' whose statements form the principal testimony in the case, the other three men still in custody at Fray Bentos were almost equally culpable with Thomas Jones, who inflicted the stab; one of them especially, by name Thomas Trainer, having been throughout the foremost and worst in threats and disgusting expressions.

These three men are still in prison at Fray Bentos, but are expected here daily.

Poor Mr. Cornwall was a quiet, kindly-disposed man, of unexceptionable character, and had been only guilty of refusing these men more money to get liquor with.

As the evidence for the conviction of this mutiny and attack on Mr. Cornwall is perfectly clear against Thomas Trainer, Stephen Frost, and Morris Guard, seamen of the ship, I have called on Colonel Bustamante, the Minister of the Interior, offering, if he would raise no objection, to take these three men on board Her Majesty's ship 'Beacon,' in order to send them to England for trial; but as the crime was perpetrated within the Republic, his Excellency, though I believe really himself desirous of having these cowardly miscreants punished, declined to assume the responsibility of this act in the face of the malignity with which all his proceedings are assailed by the Opposition press, and these men will be tried by the common law of the country, so that I fear they will be lodged in gaol for an indefinite period, as the prisoners confined under an accusation of murder have all of them been from two to three years, or even more, in prison without judgment having been passed upon them.

As I could advance no positive right that these murderers should be given into British custody, I have abstained from any official pressing or action, requesting Colonel Bustamante to consider my visit as unofficial.

No. 2.

Consul Munro to Earl Granville—(*Received September* 23).
(Extract).
Montevideo, August 25, 1870.

Refegring to my despatch of the 10th inst., I have the honour further to inform your Lordship that, upon making a second visit to his Excellency Colonel Bustamante, the Minister of the Interior, upon the matter of the three Englishmen arrested for the murder of Mr. Cornwall, his Excellency, who a day or two subsequent resigned office, stated to me that the question was of so delicate a nature that he did not like to assume any responsibility in it himself, and referred me to the Minister for Foreign Affairs.

As I knew that Dr. Rodriguez was also about to retire from office I did not call upon the latter, but on the 19th inst., I called upon the President of the Republic, General Battle, who had recently re-occupied that position, from which his Excellency had been absent in the temporary command of the military force in the Campaña.

On the occasion of this visit his Excellency the President said to me that the charge against the English prisoners was of so heinous a character that he was quite willing that these men should be sent to England for trial, if a way could be suggested that would enable him to act to that effect.

I replied to his Excellency that as all the features in the case were intrinsically English,—as the victim was master of an English vessel anchored in the channel of the river, as the accused men were English seamen of that ship, and the witnesses English seamen of the same, under engagement to return with her to England and who could not be kept for an indefinite period in this country,—I thought his Excellency, as first magistrate of the Republic, without incurring attack or blame, might hand over the affair to the British Government to deal with.

On the following day, Captain Gooch Commanding H.M.S. Beacon, informed me that within a few days her Majesty's gunboat Cracker might be expected down from Concordia and could receive the prisoners on board at the intermediate port of Paysandu, of which suggestion I informed his Excellency the President of the Republic, through the verbal medium of the acting Minister of Foreign Affairs Señor Hordeñana; and the answer that I received from Señor Hordeñana was that his Excellency the President had desired him to tell me, that having reflected seriously since our interview, upon the point of giving up the prisoners, his Excellency had decided not to do so under any arrangement.

I have considered it my duty, my Lord, to put it in your Lordship's knowledge the foregoing details, and I have sent a copy of this despatch to Mr. Macdonell.

When I wrote my despatch to your Lordship of the 10th instant I was under the impression that the 'Bobycito, was alongside of the jetty of the Liebig's Extractum Carnis Company's works when the murder of the master was perpetrated, but this was an error, as the ship was then anchored in the channel of navigation, between this Republic and the Argentine Province of Entre Rios.

No. 3.

Viscount Enfield to Consul Munro.
Foreign Office, April 4, 1871.

Sir,

With reference to your despatches dated the 10th and 25th of August last I am directed by Earl Granville to instruct you to report to his Lordship whether any legal proceedings have hitherto been taken by the Uruguayan authorities against the murderers of Captain Cornwall; and if so, whether any and what result has been arrived at in the matter.

I am, &c.,
(Signed) ENFIELD.

THE CHURCH OF ENGLAND.

Mr. Miall's Motion for its Disestablishment.

(*From our own Correspondent*).

On Tuesday the 9th inst. the British Parliament decided by a majority of 285 that the Church of England should not be disestablished. This result was of course foreseen; and whilst it was acknowledged that the idea was premature, and that public opinion was not yet ripe for such a measure, it was on the other hand admitted by the adversaries of the motion that there were certain reasons which justified its introduction. Mr. Miall brought forward his abstract and tentative proposal in a speech full of earnestness and intellectual power; and its tone of dignity and moderation received eulogiums from all who took part in the debate. His line of argument was confined to the abstract propositions that the separation of the spiritual and temporal powers was a natural result of the altered political conditions not only in England but in Europe, and that the unity of belief which the Church was erected to preserve, could not be maintained. He carefully abstained from all religious and sectarian questions, and departed from his purely political survey, only to state his belief that the acts of uniformity had been prejudicial to the religious and moral tone of society, owing to the sacrifice of the individual convictions of clerical teachers to the dictates of ecclesiastical law. He made a point of analogy between the reasons for disestablishing the Church in England and in Ireland, and [illegible] denied the equity of this analogous ap-propriation of the property of the nation to meet the spiritual wants of only a part of the nation; and as for that part, if not mainly consisting of the upper classes, it was certainly amongst them that the temporal wealth of the Church was distributed. Mr. Miall then alluded to the probable troubles which must sooner or later overtake this country as the revolutionary tide rolled forward, and he implored the House as a measure of prudence to safely moor the Church out of reach of the political billows.

The motion was second by Mr. Lewis and supported by Mr. Leatham and Mr. Richard. Mr. Bruce and Mr. Gladstone opposed it on the part of the Government, but the speech of the Home Secretary was apologetic and left the Government unfettered for future action. The chief speakers against the motion were Sir Roundell Palmer and Mr. Disraeli. We could not expect from either of these gentlemen the closeness of argument that characterized the speech of Mr. Miall, and which was the result of a life's labour; but they were both worthy of the speakers, the occasion and the arena. Sir R. Palmer exhibited himself in his true light of a cultivated and liberal minded English gentleman who had worked his way up to eminence in his profession and in the State, and found all things good; and with every desire to be just to all men, he looked upon the church as a moral bond in society, as property was a material bond, and he evidently disliked any radical change, less, perhaps, for the sake of the supposed moral bond, than for the possible dangers to the material. He alluded to some remarks of Mr. Miall regarding the value of freedom of enquiry to Theology as well as Science, and made a hit, which was loudly cheered, by saying 'We make no discoveries in religion.' The remark was just true enough to suit his practical audience, but either it was subversive of all belief or the only 'doxy' is the 'doxy' of the member for Richmond. Mr. Disraeli after the manner of his generation of thirty years ago started at once with a thin glaze and glitter of historic illustrations. In a few lines he ran through the Stuarts, the Commonwealth, Napoleon and Louis XVIII, and twice harrowed the feelings of the House by an allusion to the present Archbishop of Paris in the dungeons of the Red Republic. He also referred to the Protestant excommunications of the Archbishop of Dublin, a statement which the Right Revd. Prelate has since flatly and publicly denied.

He admitted that perhaps the country had outgrown the church, but, says he, fifty years ago the country had outgrown something else— it had outgrown the State! Would you have us abolish the State? (loud cheers, very loud cheers) "The Church," said the member for Buckinghamshire, conscious of his own failing, "will not be disestablished by logic, but by rhetoric." The gist of his speech was at the end, when he gave it as his opinion that we had arrived at the limit of organic change; that at last the God Terminus is discovered, and that the country seeks political repose; that the majority of the people are in favor of the establishment and its traditions, and that it has effected an immensity of good; that its ritual was refined, and its clergy learned. Mr. Gladstone also spoke of its traditions, of its glories of thirteen hundred years' standing, of its entwinement in the feelings and habits of Englishmen, of the herculean task of its disestablishment, compared with that of the Church of Ireland; Mr. Gladstone, in short, in his old age returned to his early love, and grew maudlin. The Church will certainly not fall to his axe; but the flood which is silently undermining it flows unceasingly. That the presence of the flood is acknowledged in high places we know from the university tests which that well meaning nobleman, Lord Salisbury, introduced into the Lords in a speech doubly ludicrous in its verdant terror of modern thought, and in its being so suggestive of the ambition of Mrs. Partington and her besom. Salisbury and his religious craze, and Ruskins and his rural Utopia, with his 'brown pots,' painted by loving hands that know not machinery nor the defilement of grime and grease, are now the current laughing stocks of London society.

EDITOR'S TABLE.

The announcement of General Paunero's sudden death at Rio de Janeiro has caused a painful impression in this city. It is thought that the worry and excitement caused by the 'Brazilian doctors' affair may have aggravated the attack of fever to which the gallant general succumbed. Yesterday the Argentine flags over all the public offices were hoisted at half mast, as a mark of respect to the memory of the deceased envoy; the foreign consulates also flew their flags half mast high, in consequence of intelligence being received of the death of her Majesty the Queen of Sweden.

Messrs. Wheelwright and Co., the well known shipbrokers of Rosario, sent us a telegram from that place yesterday, announcing that they will receive cargo at that port to be shipped direct to Antwerp per steamer Newton.

The new Legislature of Entre Rios is beginning well. A project of law has just been sanctioned by it, providing for the payment of the floating debt contracted by the Province from the 13th of April, 1870, to the end of the same month this year. A loan [illegible]

[illegible] interest, with an annual amortization of 2 per cent.

An unseemly disturbance took place at the Belgrano station of the Northern Railway on Thursday. It appears that (as unfortunately is too frequent on this line) a train was behind time, and those persons who had taken tickets for it beguiled the tedium of waiting for it by smashing the furniture and fittings of the station, some, according to a colleague, going so far as to threaten violence to the station master. Whatever the defects of the Northern Railway may be, and we are free to confess that at present they are conspicuous, this way of expressing public disapproval is at once childish and contemptible, and cannot be expected to hasten the reform in the management of the line which is now imperatively called for.

The latest advices from the province of San Juan announce a smart shock of earthquake felt there on the 28th of last month; the local papers say it was the severest ever felt in that province.

We hear that the tramway bridge at Barracas was very much injured by the rain on Monday last.

The death of Madame Viardot Garcia, the celebrated contralto singer, was lately announced by some Paris papers: the report turns out unfounded, as the great artiste is in London. This is the lady who first made the part of Azucena, in Verdi's Trovatore, by her magnificent acting.

With all the conveniences of the tramway there is a limit to human endurance, at all events during this dirty weather it is far from agreeable to have ones boots unnecessarily soiled, irrespective of the internal suffering from overcrowding of the carriages. Whether they are intended, or licensed, at least they seem to be permitted to carry as many passengers as can be crowded into them. Surely some regulation should be observed. To travel from the Once in a state of purgatory is enough to unfit anyone for business, where the 'suaviter in mode' is a requisite. The public ought to know whether a respectable comfortable journey is before them, or whether they are likely to be crowded as sheep in a pen. Why not have affixed to each car the number of passengers which it is constructed and limited to carry? Instead of this admirable mode of transit, which has now become a necessity, being made disagreeable, there requires such regulations as would make it a convenient luxury. Especially on behalf of the ladies this should be considered.

A gentleman who has just returned from the camp has favoured us with the following remarks on the dog nuisance. We proposed a dog tax about two years ago, but our colleagues 'wet-blanketed' the idea—"Nothing strikes one more on returning to town than the great decrease of the canine race, but a somewhat strange sight was observable lately of a man, evidently of no small importance to himself, marching along Calle Bolivar with some half dozen mastiffs muzzled up to the ears. The show attracted general attention, and many on seeing the muzzles were securely fixed, patted the animals with the greatest nonchalance, aye, with no more fear than they would look down a spiked gun. But 'apropos' to this decrease of the dog nuisance, might not the present be a suitable time for taxing those who will encourage a superabundance of these enemies to the comfort and safety of pedestrians. Should even the same be extended to the camp it would have a salutary effect, as large numbers are kept more for ornament than use, to the terror of travellers. Governments in general are alive to taxation, still there are some cases where it is overlooked, and if the money raised from a dog tax was wisely expended in stocking the rivers with fish, the country would eventually be the gainer, as it would tell both ways, more fishes and fewer dogs—'a consummation devoutly to be wished.'"

The Santa Fe authorities have at last laid hands on some of the participators in the numerous robberies and murders lately committed in and around Rosario, It is not to be wondered at that crime is rife in that unfortunate province, for among the 40 persons arrested are to be found several commissaries, comandantes, and "Justices of the Peace." Unless these men are adequately punished, the moral effect which their arrest might otherwise have will be lost, if not absolutely rendered pernicious.

In their late assault on Fort Sarmiento, the Indians burst into the place and took the garrison by surprise. They were eventually driven off, but took away with them two women, two children, 300 oxen, and several horses; in exchange, they left with the troops three of their number killed, several wounded, and some saddled horses.

Gold and silver ore is said to have been discovered at Tintigasta, in the province of Catamarca, by a Sr. Ramay, who takes a very favorable view of mining prospects in that district.

The Provincial Bank has placed 3,000,000 paper dollars additional to the credit of the Provincial Government, to meet further expenses of the epidemic. This sum raises the extraordinary outlay caused by the plague to the Provincial Treasury to thirteen millions currency.

The Convention for the Reform of the Constitution held a full session on Thursday, 48 members attending. Next week it is to [illegible] and will positively [illegible]

It appears the hull of the ill-fated 'Yi' has not as yet been wholly removed; a schooner heavily laden with iron ran on it during the 'pampero' on Thursday and at once went to Davy Jones' locker. The iron will no doubt be saved, but at much expense and trouble.

The *Republica* of yesterday mentions the death of an old lady named Diaz at the respectable age of 112 years.

The Philharmonic Society, whose concerts are such an attraction to the 'beau monde' in the winter months, are about to give one in the Coliseum in aid of the poor of the city, whose numbers have so terribly increased by the yellow fever.

It appears that Barnum and his monster show cannot be expected in the River Plate as soon as was at first reported, as he intends paying a visit to Albion's shores first; some of his curiosities have already arrived at Liverpool in two steamers specially chartered for their conveyance.

The fine steamer Lacydon sails to-day for Antwerp. Letters can be posted at the 'Capitania' up to 2 o'clock.

Not a single fatal case of yellow fever was reported on Thursday, and the number of deaths from various causes was only 14. Many families returned to town from the camp on that day, and up to a late hour at night furniture vans were to be seen entering the city at all points, and discharging their heavy loads (seemingly very much the worse for three months service in the camp), at the most fashionable houses in Calle Florida, Victoria, Parque, etc., etc. The various shops are beginning to do more business, particularly the outfitters.

The deaths from small pox in Montevideo have now reached an average of 14 a day, and considerable alarm is beginning to be manifested in consequence of the 'laissez faire' inaction of the authorities, who have as yet taken no steps whatever to prevent the terrible disease assuming devastating proportions.

The last advices from England state that M. Lesseps has nearly completed his long pending arrangements for handing over the Suez Canal to an English Company. The fatal war in which France engaged last July has rendered it impossible for the French shareholders to carry on the enterprise any longer. This gigantic work will ever be pointed at, however, as a testimony of what French skill and energy can accomplish.

The *Nacional* is now publishing a translation of "Dame Europa's School," the laughable pamphlet published in England some months ago by a dean of Salisbury Cathedral, and which appeared in the STANDARD before the plague broke out.

We are requested to state that information as to the whereabouts of Mr. Lusk, of Glasgow, for some time resident in this country, would be gratefully received by the Rev. Mr. Smith, the esteemed pastor of the Scotch Church.

The permanent way on the Lobos branch of the Western Railway was somewhat injured by the heavy rain in the beginning of the week, but not to an extent to interfere with the traffic.

Governor Castro was unable to attend at the Government House on Thursday. H.E. is said to have passed the best part of the day in getting half way into town by the Northern Railway, and barely got back to San Fernando in time for dinner.

A writer in the *Overland Monthly* gives the following interesting description of what the people of Buenos Ayres call the 'aire.'—He was sitting with the American proprietor of a quinta, one warm noon-time, with the doors and windows all open, and sipping a glass of wine, when he experienced a sudden but not unpleasant sensation, like a quick, light chill, which lasted not longer than a quarter of a second At the same time a sharp click proceeded from the bottle and wine-glasses, as if they had been lightly rapped by some small object. 'That's the aire,'—'What's the aire?' asked the guest. 'If you attempt to lift that bottle,' said the host, 'you will find it cut in two; and you will discover that the glasses have shared the same fate.' This was found to be true. No satisfactory explanation can be given of this phenomenon, but it is thought to be entirely electrical. If a dog or other animal should be heated at the time it comes in contact with the 'aire,' it is instantly fixed in its then position. If a dog is about to scratch his ear his hind leg would be held rigidly, as if in the act, for several successive days. Mankind is not wholly exempt from its influence, and people who have been caught in that position by the 'aire' are frequently seen with their heads turned half round, as if looking over their shoulders. The effects are readily reduced by poulticing, and have never occasioned serious afflictions.

A home periodical gives some curious statistics in reference to the number of pens used in the Public offices of England during the financial year 1870-1871. The steel pens consumed were 10,344 gross, and the quill pens were 430,087; the cost of both was £2186; Five years ago the quantity used was much larger.

One of the latest signs of the march of civilization is the announcement that an Alcazar has been established in the Fiji Islands. The chief town already boasts of a dramatic club, having 20 members enrolled.

Our colleagues are all busy with election and Convention topics and have abandoned, probably till next year, any veiled attempt to put the city put in order. The Municipality and Health Council are now at variance as to how and when the streets of the city are to be cleaned, and there is every appearance of an intention to leave them as they are.

Judge Echeverria suspended an Escribano named Miranda on Thursday for refusing to give a copy of a will unless he was paid for so doing. Sr. Miranda has appealed to the Court above.

NORTHERN RAILWAY OF BUENOS AYRES.

DIRECTORS' REPORT.

It is again the pleasing duty of your directors to report a satisfactory increase in the receipts and a decrease in the ordinary working expenses. From the revenue account annexed, it will be seen that the gross receipts of 1870 amounted to £55,921, compared with £49,681 for the year 1869, showing £6,239 increase, whilst the ordinary working expenses were £23,821, as compared with £25,066 for 1869, showing £1,245 decrease.

In the report dated 3d of June 1869, your directors adverted to the suspension on the 17th of November 1868 of the guarantee granted to this company on the ground that your line was not in the condition of a first-class railway. A suitable remonstrance was made by the company's representative against this unprecedented proceeding, and it was pointed out that large sums were being annually spent upon the rolling stock and permanent way, greatly in excess of ordinary working expenditure.

Upon the account rendered to the Government for the year in question (1868) there was a balance of £1,550 due to the company under the guarantee. Your directors have now the satisfaction of stating that in August last the suspension was removed, and the balance above referred to paid.

Your directors have to report that the necessary ironwork and stores for converting the tramway into a locomotive road (sanctioned at a special general meeting held 24th November 1869) have been forwarded to Buenos Ayres, and that the work is now rapidly progressing. Your directors have no doubt of satisfactory increase in your traffic receipts being the result, in addition to which, the convenience of the public using this portion of the line will be greatly increased.

In the last report the directors adverted to the sum, about £20,000, estimated as necessary for special expenditure during the years 1869 and 1870, and it was agreed that the amount, £10,360, expended for new special works and new plant in 1869, should be charged to capital, which has accordingly been done. The amount expended in the last year under these heads is £9,650, and it is intended, with the shareholders' sanction, to charge this also to capital, in accordance with the arrangement of last year.

Within the last few months, Mr. Bateman C.E., F.R.S., has been requested by the Buenos Ayres Government to examine the Rio de la Plata, and to report on the possibility of constructing a harbour for vessels at or near to Buenos Ayres. Mr. Bateman has made the neccessary survey, and has prepared a very able report, which it is believed is now under consideration of the Government authorities. This project, if carried out, must tend to increase largely the receipts upon your railway, as well as reduce the present excessive charges made for lighterage.

In accordance with the precedent of last year a dividend at the rate of 7 per cent. per annum on the guaranteed preference shares will be proposed for one year and a half to December 31, 1869, payable in cash, and the meeting adjourned until the 9th of June next, for the declaration of a further dividend for the year 1870, contingent upon receipt of subcriptions for the £10,000 of 6 per cent. debenture stock, yet to be placed.

The directors have thought it desirable to appoint Mr. Thomas Denton (formerly of the Great Northern) as their resident engineer.

The directors retiring at this meeting by rotation are Sir J.C.Lees and Mr Edward Wright; they are eligible for re-election, and offer themselves accordingly. Mr. Bird being disqualified from further acting as one of your auditors we have temporarily appointed Mr. Hutt, professional accountant, and it will be for the shareholders at the approaching meeting to appoint two gentlemen to audit the current year's accounts.

The directors cannot conclude this report without recalling to the minds of the shareholders the present improved and satisfactory position of the company as compared with what it was in 1866. A great deal of this improvement is attributable to the ability and perseverance shown by your manager Mr. Crabtree, and his colleague Mr. Santa Maria, as well as the officers generally at Buenos Ayres, in the various and difficult duties they have had to discharge. Mr. Crabtree has been recently in England, and has placed the directors in possession of much valuable information in regard to your line, and arrangements have been made for his continuance in the company's service.

A lady having the misfortune to have her husband hang himself on an apple-tree, the wife of a neighbor immediately came to beg a branch of that tree, to have it grafted into one of her orchard, "for, who knows," says she, "but it may bear the same kind of fruit!"

ON 'CHANGE.

June 16, 1871.

Ounces	400
Sovereigns	122½
Patacones	25
National Bonds	70½

There were few transactions in National Bonds: 1000 cash at 70½, and 10,000 for July 30 at 69½ ex. div.

The proposed loan of one million sterling to the Province of Santa Fe created a good deal of attention, and shows to what an almost unlimited extent English capital can be obtained for any purpose that has the appearance of being practicable. The establishment in Santa Fe of a Provincial State Bank is replete with advantages, and it is to be presumed that similar contracts will be offered to most of the other provinces.

When we state that the present rate of exchange for a draft in Catamarca, payable in Cordova is six per cent. premium, some idea may be formed of the disorganized state of banking in the provinces.

The Legislature of Entre Rios are most honourably about to arrange claims arising from the late revolution there. It is to be hoped that the holders of Entre Rios bonds will soon be paid their overdue coupons. The total consolidated debt is but a trifle, some 480,000 patacones.

The Villa Maria to Rio Cuarto branch of railway has, during the last two months given a nett profit of 980 Bolivian dollars.

The "America" has suspended sailing to Montevideo until to-morrow (Saturday).

Some excitement was apparent among discounters in regard to recent protests of bills of an influential Argentine capitalist; it seems the liabilities are about eight millions currency while the landed estates are at least worth four times the amount. The matter will soon be satisfactorily arranged.

Some Transandine Telegraph shares changed hands to-day at 10 per cent premium.

Discounts are easy, yet it is noticed that the Provincial Bank restricts its operations to granting one-third or half the amount asked for. Generally, money is much more abundant.

It is stated, we know not on what authority, that General Gelly-Obes has obtained a concession for taking up the Chacarita tramway, and running two branches, one to Belgrano, the other to San Martin. The present line to the Chacarita cemetery will be ceded to General Gelly Obez, who is, moreover, to get a contract for the conveyance of funerals. The branch to San Martin will be for the special immigration service.

Messrs. Lacroze made a trial trip yesterday on their new line of tramway from Plaza Once to Calle Rio-Bamba and thence along Calle Victoria to the Plaza.

The *Nacion* combats the proposal of Dr. Velez Sarsfield to establish a Caja de Credito—1st. Because the Finance Minister only ought to settle such matters, and secondly because the Caja de Credito would be, so to speak, immoral.

Municipal Bonds are without enquiry; holders complain that there is no prospect of getting the overdue interest and amortization arranged.

Southern Railway Shares offered at £26 each. Coliseum Shares enquired for at 70 per cent. of nominal value.

Messrs. Wheelwright & Co. of Rosario, agents in that city for Messrs. Lamport and Holt of Liverpool, announce that they are prepared to receive passengers and freight per steamer Newton direct for Antwerp.

TEMPERATURE.

The Drawing of the Dividends, corresponding to the first six months of the present year, will take place on the
30th of JUNE next.
Owing to the fact that the business of the Society has increased largely, and has been invested advantageously since the 1st of January of this year, the
DIVIDENDS
to be drawn for at the conclusion of the present Half-year will be far more considerable than those of the last Drawing.
In the Drawing of the 30th of December ult., one of the Shares, worth 10 fuertes, drew the sum of 1,000 fuertes, which was the highest premium, since the amount of the profits of the first Six months of the Society's existence amounted to 3,000 fuertes, the balance of 2,000 fuertes being divided into five dividends of 100 fuertes, 10 of 50 fuertes, and 40 of 20 fuertes each.
In the present
DRAWING
the highest dividends will be far greater than in the last, and will be increasing at every succeeding
DIVIDEND.
The holder of a Share of 10 fuertes, equal to 250 dollars currency, not only secures this sum, which will be returned to him at the expiration of five years, but he will moreover, by means of this slender amount, which, from its smallness was unproductive and easily wasted, on objects of no importance, acquire a right to share in the profits that are drawn for every six months, the largest of which, that in December 1870 was 1,000 fuertes, being likely to increase to
10,000, 20,000, and 30,000
PATACONS.
Any shareholder, who at the end of the five years, instead of withdrawing his capital, prefers to renew his share and continue to take his chance of being favored by fortune with some of the dividends drawn per Half-yearly, has the privilege of doing so.
As is well-known the capital of the shares, as well as the profits thereby accruing, are deposited, in accordance with the Statutes of the Society, in the Provincial Exchequer, in the shape of Mortgage Securities, under the surveillance of the
GOVERNMENT DELEGATE,
thus giving the most absolute guarantees to the operations of the Society.
Any Shareholder having 100 fuertes or more, in Shares, and preferring to receive an interest of 10 per cent for his money, instead of taking his chance of Drawing a Dividend, may at any time exchange his shaes at par for a Bond of the Society, bearing 10 per cent. interest, payable quarterly.
THE DRAWING
will be conducted with all due formality, and presided over by a Delegate Inspector, appointed by Government, and in the presence of the Board of Directors, the Manager, and a Public Notary.
Shares may be obtained, and all further particulars will be given at the Central Office,
213½ CALLE PIEDAD.
BUENOS AYRES,
Which is open every Week Day from Ten to Four, and on Feast Days from Ten to Twelve.

SAVINGS BANK

BANK MAUA AND Cc.

101--Cangallo--103

BUENOS AYRES.

The immense advantages of Accounts Current we now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Maná & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá & Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes alerady mentioned, Sundays an holidays excepted.

The Bank will deliver to each depositors a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interes will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

P. P. MAUA & Co.,

M. A. DE FREITAS AMORIM.

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. p. (illegible) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds Twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wish can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

P. P. Mauá & Co.

M. A. DE FREITAS AMORIM.

EARL RUSSELL communicated to the Royal College of Physicians of London that he had received a despatch from Her Majest.'s Consul at Manilla to the effect,—"THAT CHLORODYNE WAS THE ONLY REMEDY OF ANY SERVICE IN EPIDEMIC CHOLERA."—See *Lancet* December 31st 1864.

TH ORIGINAL

CHLORODYNE

INVENTED BY

RICHARD FREEMAN, Pharmaceutist,

Is allowed to be one of the greatest discoveries of the present century. It is largely employed by the most eminent Medical Men, in hospital and private practice, in all parts of the globe, and is justly considered to be a remedy of intrinsic value, and of varied adaptability, possessing most valuable properties, and producing curative effects quite unequalled in the whole *materia medica*. It produces therapeutical effects which are peculiarly its own, and which are not approached by other preparations bearing the name of Chlorodyne.

No other remedy at present known can be exhibited with so much confidence as a SEDATIVE, an ANTI-SPASMODIC, an ASTRINGENT, or DIAPHORETIC.

The Right Honorable EARL RUSSELL graciously transmitted to Mr. R. FREEMAN—the Inventor of CHLORODYNE—the following extract of a despatch from Acting Consul Webb, dated Manilla, Sept. 17, 1864:—

"The remedy most efficacious in its effects (in Epidemic Cholera) has been found to be CHLORODYNE, and with a small quantity given to me by Dr. Burke I have saved several lives."

From *The Times*, Nov. 14th, 1865:—During the last five or six weeks, the Wife of the Rev. Mr. FORBES, the Chaplain to the English Church, Rue d'Agnesser (Paris) has gratuitously administered Chlorodyne in between 50 and 60 cases of incipient Cholera, in some, where the disease had made considerable progress, and succeeded in arresting it in every instance.

CAUTION.—None genuine without the words "Freeman's Original Chlorodyne" engraved on the Government Stamp, outside each Bottle.

N.B.—As so many preparations bearing the name of Chlorodyne are pressed upon the Public—but which are entirely devoid of its peculiar properties—particular care is needed to ensure procuring

Freeman's Original Chlorodyne.

BY THE USE OF

BRISTOL'S SUGAR COATED VEGETABLE PILLS.

These Pills have justly acquired a widely extended reputation for their wonderful cures of severe cases of sickness—cases in which all other Medicines had failed, and which had been given up by Physicians as beyond help—such as confirmed and long-standing Liver Complaints, obstinate cases of Piles, Dropsy, &c. But while admitting their wonderful curative powers is difficult dased, we wish to call attention to their great value in the every-day diseases of life, such as Costiveness, for which they are a perfect specific; Headache relieved and cured by one dose; Indigestion always removed by them, and the stomach so toned and strengthened as to prevent a return. Bad Breath cannot exist when the stomach is cleansed by

BRISTOL'S SUGAR-COATED PILLS.

Purely Vegtable.

For Loss of Appetite they are the only sure remedy, as they never fail in carrying off the depraved bilious secretions that float in the stomach and destroy the healthy, natural craving for food. Sour Stomach, Heartburn, Flatulency, and all Derangements of the Digestive and excretory Organs, are promptly relieved and cured by them. The public should always bear in mind that Bristol's are the only Pills made of

Podophyllin and Leptandrin,

The only vegetable substances yet discovered that are really

Antibilious,

To the presence of which invaluable resinoids the extraordinary success of Bristol's Pills may in a great measure be ascribed. It is necessary, however, that the sick should always remember that in all diseases that have their origin in the blood.

BRISTOL'S SARSAPARILLA,

That best of blood purifiers, should be used with the Pills, the two Medicines being prepared expressly to act in harmony together. When this is done faithfully, we have no hesitation in saying that great relief, and, in most cases, a cure, can be guaranteed when the patient is not already beyond human help.

For general directions and table of doses, see the wrapper around each phial of Pills; but as different constitutions requirre different doses to produce the same effect, it is better that each person ascertain, by trial, the dose that suits their system, and take that dose, instead of following any general rule.

For Sale at all the principal Drug Stores.

NOTICE TO EMIGRANT.

IMMEDIATE EMPLOYMENT.

The Immigration Committee can find immediate employment for forty-two hands, for the town of San Andres de Giles.

24 Working Men.
1 Female Domestic Servant.

VILLA SARMIENTO

A Suburb of Cordoba.

Building Lots $f.100 each.

This charming suburb commands a fine view of the city of Cordoba in the low ground and the Sierras in the distance. It is proposed to establish here the new water-works of the Antisecate Aqueduct as projected by the Engineer of the Province, Col. Thompson.

The air is peculiarly salubrious and invigorating, and the site is destined to be one of the favorite summer-residences in the Republic. Villa Sarmiento comprises 70 cuadras (or 140 acres) half of which are already taken by English merchants and native families of Buenos Ayres.

There are two plazas, called Colon and 25 de Mayo, and th streets are 20 yards wide. The blocks are 100x100 varas, and each lot for building is 20x50, price $f.100.

With the growing importance of Cordoba this locality will rise greatly in value, and the site is so well suited for country houses, coupled with the abundance of lime and timber, that families can have a delightful residence, within 2 days journey of Buenos Ayres, at a mere nominal cost.

For plans &c. apply to

A. J. BULLRICH,

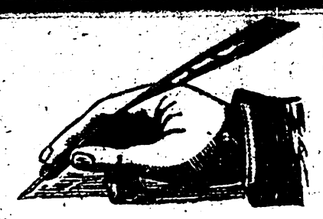
Next Bank and Bolsa.



A FORTUNE GAINED BY A GOOD HANDWRITING AND A KNOWLEDGE OF BOOK-KEEPING, &c.

MR. O'DWYER,

Who has made over two hundred good writers since his arrival in Buenos Ayres, gives Lessons at all hours, from Ten a.m. till Ten p.m., at the new English College,

186 CALLE MAIPU.

Ladies can learn the Queen's Italian Running Hand, which is so much practised and admired amongst the highest circles of rank and fashion; and Gentlamen a bold, dashing, Mercantile Hand, in from Six to Twelve Lessons, of one hour each. Parties who never wrote can become good writers in one month.

Mr. O'Dwyer has testimonials of gratitude and recommendation, from many of the leading native families in the city; also from the foreign residents, recommending his system of teaching 'arscribendio' as unequalled and unrivalled.

Improved specimens and testimonials to be seen on application for card of terms.

An Evening Class every night from Seven to Ten p.m., for Mercantile Writing, Book-keeping, and Accounts; also for English, French, Spanish, and German, from one of the greatest Linguists in South America.

186 CALLE MAIPU.

GOVERNMENT BRIDGES.

CONTRACTS FOR LAND TRANSPORT.

In a short time Tenders will be called for for the conveyance of the materials for the Hundred and Eighteen Bridges about to be erected by the Provincial Government in all parts of the Province.

The total weight will be over 6,000 Tons, and will consist of—

1st. Iron plate girders from 27 to 33 feet long, 1f. 6in. to 2f. 6in. deep, and weighing from 13 to 24 cwt. each.

2nd. Wrought iron round piles, 4½ inches in diameter, not exceeding 18 feet long, and weighing not more than 10 cwt. each.

3rd. Iron plates, cases of iron work, &c., weight not exceeding 12 cwt. each.

At present Tenders are required for the carriage of the materials for—

1st. Twelve Bridges for the north of the Province, the weight averaging about 50 tons for each bridge, of which about one-seventh in girders, to be carried from any Station on the Western Railway, selected by the Contractor to the intended sites.

If it be preferred to carry the Materials for part of the distance by the River Parana, they will be delivered in the Riachuelo.

2nd. Bridge over the Rivar Salado, Paso de la Postura, weighing 473 tons, of which 88 tons in girders. This Bridge will be delivered to the Contractors at the Southern Railway Station, Chascomus.

For further particulars and condition of Tender, apply at the Office of Puentes en la Campaña, Ministerio de Hacienda de la Provincia.
